You are invited to a full day of information, analysis, networking, mobilization and inspiration:

Where are we headed in Israel/Palestine?

Nabila Espanioly has spent three decades campaigning for the civil rights of the Palestinian minority in Israel, for peace between Israel and Palestine, and equal rights for women. She is the Director of the Al-Tafula centre which serves child development and women. Nabila will speak to 'A perspective of a '48 Palestinian citizen of Israel'.

Jeff Halper will address the theme 'BDS for BDS' (Boycott, Divestment and Sanctions for a Bi-National, Democratic State). Apartheid cannot be accepted by any of us, not even by the most fervent supporter of Israel. The Middle East is in flames and we have become part of a global catastrophe which affects us all. Our focus must shift to actually resolving the conflict, not managing it or merely protesting it.

THIS CONFERENCE WILL:

- **UPDATE** on the situation on the ground in Israel and the Occupied Palestinian Territory following recent unrest
- **CONNECT** current BDS campaigns in the UK with those in I/P
- **SHARE** information on ways to connect with ICAHD on the ground
- **HELP** equip attendees for future campaigning and events
- **PROVIDE** free and saleable resources
- **DISCUSS** practical ways forwards
